Lubricating Gel

Our premium lubricating gel is an essential component of endoscopy consumables, designed for endoscope lubrication to ensure smooth and safe insertion of endoscopic instruments. This high-quality water-based gel minimises friction, enhances visibility, and supports optimal outcomes in various endoscopic procedures. Trust our products to deliver the reliability and performance you need for successful endoscopies.

CLASS IIb Medical Device

ARTG 526907

Features

- EndoSelect Lubricating Gel is a crystal clear gel for use in transient gastrointestinal endoscopic procedures with duration less than 60 minutes.
- EndoSelect Lubricating Gel is a water based formula, designed not to obscure the endoscope lens.
- EndoSelect Lubricating Gel is non-drip, easy to apply viscous gel and is easy to remove post procedure.
- EndoSelect Lubricating Gel sachets are easy to open, ideally sized containing 20g of lubricant for single patient use.
- Ideal amount of gel provided for dual procedures (gas & colon)
